## AVEO ACE Quick Start Program Overview

AVEO Oncology's Quick Start Program provides newly prescribed, eligible patients a 7-day supply of FOTIVDA® at no cost in the event of a coverage-related delay. If coverage delays persist, patients may receive up to 30 days of medication at no additional cost

### How Does The Quick Start Program Work?

#### 1 Submit AVEO ACE Patient Enrollment Form

AVEO ACE provides support during the coverage review and claims process and provides eligible patients access to the **Quick Start** and **Bridge Programs**

#### 2 Patient Verification and Dispensing

- The AVEO ACE Program will verify a patient's eligibility for Quick Start or the Bridge Program in the event of coverage delays or disruptions
- Eligible Quick Start Patients will receive a 7-day supply of FOTIVDA
  - Based on the nature of the delay, the AVEO ACE Program may determine if additional supply is appropriate\*

#### Select Quick Start Program Eligibility Criteria:

- ✓ The patient must be a resident of the U.S. or a U.S. territory
- ✓ The patient must have a valid, on-label FOTIVDA prescription from their healthcare professional (HCP)
- ✓ The patient must have commercial or government prescription drug insurance coverage
- ✓ Coverage determination has not been received within 5 business days of required prior authorization submission; OR:
- ✓ HCP determines there is a medical necessity that the patient start therapy immediately

\*The default Quick Start supply is seven (7) days. Based on the nature of the delay, the AVEO ACE Program may dispense up to a 21-day supply (total). In the event that an insurance delay exceeds thirty (30) days, an additional Quick Start prescription can be submitted by the HCP for patients actively pursuing coverage
